

# Stroke Prediction Dashboard

The Dashboard will be comprised of multiple pages in Tableau story format of interactive dashboards with visual analysis from the raw data, and the predictive model results. Below are just a few of the initial possible data insights to highlight. We will continue to add more visuals as we we further explore the data and refine the model.

Gender Among Strokes

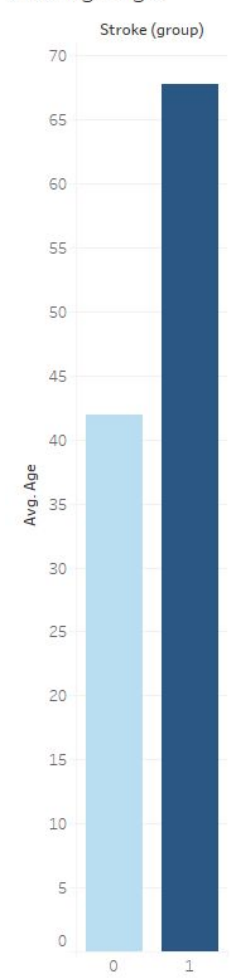

Ever Married - Strokes

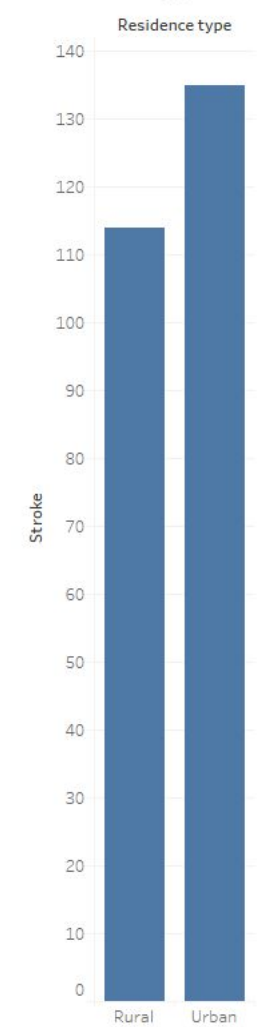

Ever Married - All Data

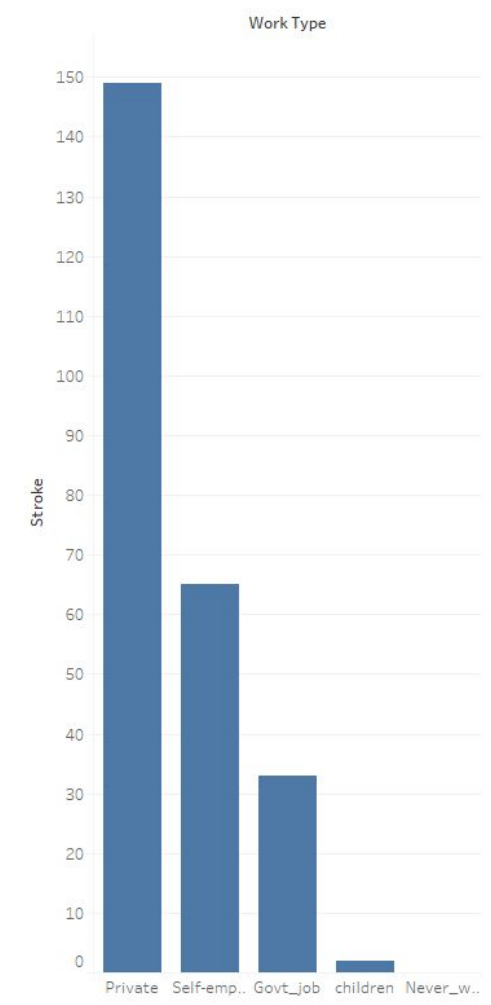

Average Age

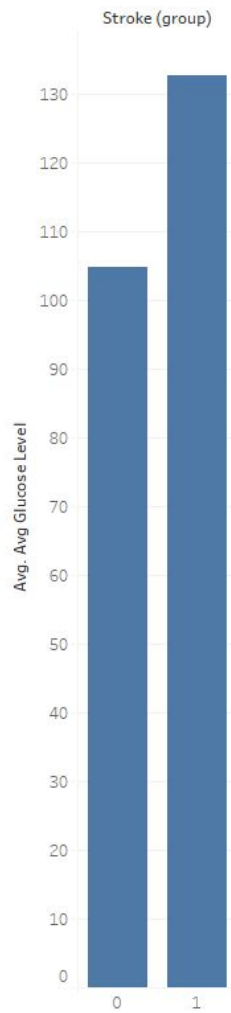

Residence Type Among Strokes

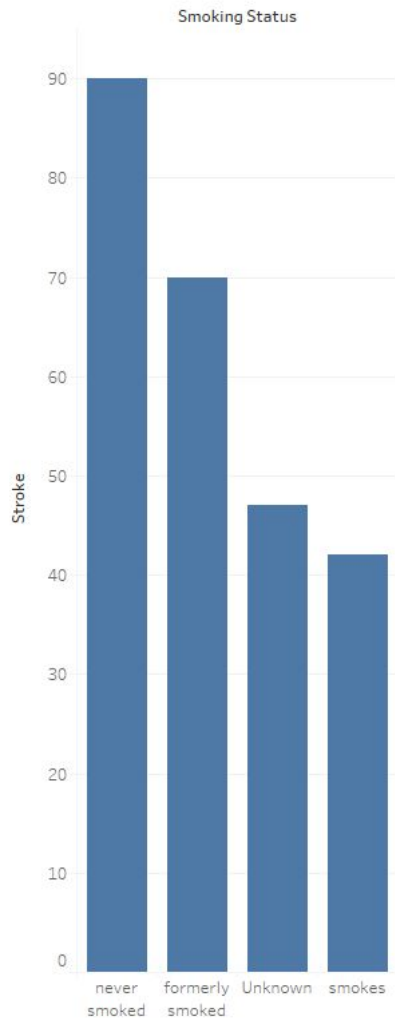

Work Type Among Strokes

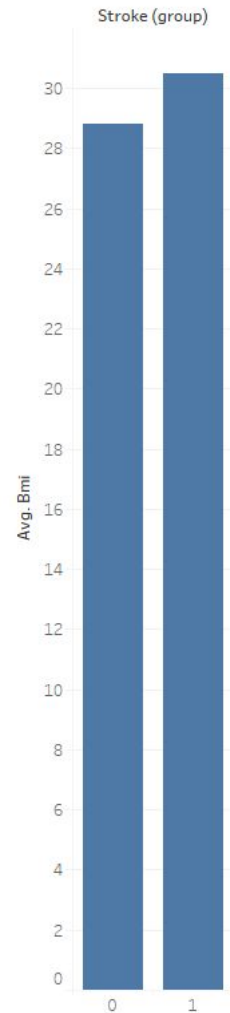

Average Glucose Level

Smoking Status Among Strokes

Average BMI

## Interactive Dashboard Element with Model Results
